- Add 1/4 cup of water to the Wishesport. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Wishesport up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

MPS HB Egg Peeler is Cheap Copy of the Negg®

May 25, 2018

So many reasons this is bad. Infringes on so much of Airigan Solution's Intellectual Property, i.e. patent #9968211, copyright, and trademark #5142630. Is there anything left? I don't know about you but I don't want them anywhere near my food. What do you think? I'll stick with my real Negg®, the best egg peeler ever.

THE NEGG

THE NEGG BOILED EGG PEELER YELLOW

458 customer reviews | 15 answered questions

Price: $7.01 & FREE Shipping

In Stock.

Get it as soon as July 6 - 27 when you choose **Standard Shipping** at checkout. Ships from and sold by loveberry.

Color: **Yellow**

- Add 1/4 cup (Negg® capful) of water to the Negg®. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Negg® up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Not worth the money. :(

June 13, 2017

Color: Red Verified Purchase

Sadly, this is no better than cracking the shell multiple times against the edge of the sink. As you can see, egg white still stuck to the inside of the shell. I've included a photo of the eggs after peeling them under running water to get the 'zillion pieces' of egg shell off.

If At First You Don't Succeed.....

August 15, 2017

Color: White Verified Purchase

My first attempt at using the Negg wasn't perfect - out of 4 eggs 2 were a mess but 2 were perfect. My second attempt was perfect as I read the Negg instructions and followed the directions for hard boiled eggs. After cooking the eggs I put them in ice water to cool quickly and then after 15 minutes used the Negg. As with many of the newer kitchen gadgets one must just take the time to follow the directions and not give up if something doesn't work perfectly the first time. Patience needed in the kitchen these days.

Makes peeling eggs a lot more fun. Cool eggs completely and follow included instructions

Makes peeling eggs a lot more fun. Cool eggs completely and follow included instructions. Add a little water, the hard-boiled egg and shake, shake, shake. It cracks up the shell, sorry Humpty, and the shell peels right off.

This Product Works!

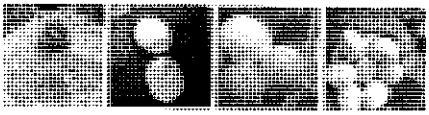

June 9, 2017

Color: Yellow Verified Purchase

If you live at higher elevations, you already know how tough it can be to hard boil and peel a perfect egg. This product is the answer. Your hard boiled eggs come out exactly the way that you want them. Of course, if you live at lower elevations or at sea level, you're probably wondering, what the heck, peeling eggs is a piece of cake. But again, if you are above 5,280 feet, this item needs to be in your kitchen.

The no-brainer egg peeler.

If you are as unsuccessful at peeling eggs as I am, the Negg is the solution. It works exactly as described - egg in, shake a bit and voila, a peelable egg. Read more

Worth the investment

August 29, 2017

Color: Red Verified Purchase

OMG! Finally something that gives me hard boiled eggs without the aggravation and without losing half of the eggs. Shells come off in one piece if you follow the directions. Yes it's a little pricey, but when you think what it saves you over the life of the product, it's well worth it!

DO NOT WASTE YOUR MONEY ON USELESS TOOLS

July 4, 2017

Color: Black Verified Purchase

Absolutely terrible tool. Do not waste your money. Tried on two different sets of a dozen eggs over the course of a couple of months. We were so busy we just hadn't made deviled eggs in a while. Unfortunately I bought these thinking we would and I'd see if they were any good. Shame on me for waiting as I can't get a refund now. The eggs were prepared exactly as described on the packaging for the first dozen, boiled then a five minute ice bath. The "NEGG" would not remove the inner shell skin, so instead it would tear the eggs up. Did not work at all. Hand peeled the last 6 eggs and they came out fine. Tried a different tactic, boiled another dozen eggs, no ice bath, and the skin DID peel away better, but still needed to first shake the eggs in the NEGG then peel somewhat, but this is where the disturbing part comes in. Small pieces of shell would get lodged in the white, and unless you were carefully checking that all of the "skin" had been removed, you wouldn't even know the small pieces of shell were embedded in the white of the egg. Try serving a deviled egg to a guest WITH shell in it. Not a great reaction will you get!

Just a terrible, complete waste of money, unfortunately, I just have to peel the eggs by hand to make them nice enough to serve.

Hard Boiled Eggs Made Easy

August 25, 2017

Color: Yellow Verified Purchase

I completely skeptical the first time I bought this. We purchased it first on Grommet and tried it out. I was amazed. Put the right amount of water in, drop in your hard boiled egg, close the lid, and shake. It's that easy. Most of the time the shell just slides right off as you are taking the egg out of the container. When I once had super fresh eggs, I had a little bit of difficulty with two of 24 I was using for an egg salad, but it was not nearly the trouble you experience when you hard boil a really fresh egg. I just had a few pieces to pull off.

Once we knew it worked so well, it was definitely worth the price. I purchased this one and sent to my mom as a gift because I knew she would never spend this amount to get it for herself. She's always doing deviled eggs, egg salad, and macaroni salad with eggs for church potlucks and I wanted it to be easier for her. She's used it several times and loves it!

Egg Scissors Cooked Egg Peeler Hard Hard Boiled Boiled Egg Shell Peeler Peeling Kitchen Tool Kitchen Accessories 9.8 * 6.8cm

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Cooked Egg Peeler Hard Hard Boiled Boiled Egg Shell Peeler Peeling Kitchen Tool

Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough for ce so that the egg strikes the caps. Remember to take it a little easy, or you will end up wi th a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will v ary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

28.10 сделала заказ, а получила 13.12. Сначала мой заказ ушел в другой город, пришлось открыть спор, но мой заказ все-таки до меня дошел и спор закрыли. Продавец тут не виноват, что то на почте напутали видимо. В целом не плохо за такие деньги.

Product Description

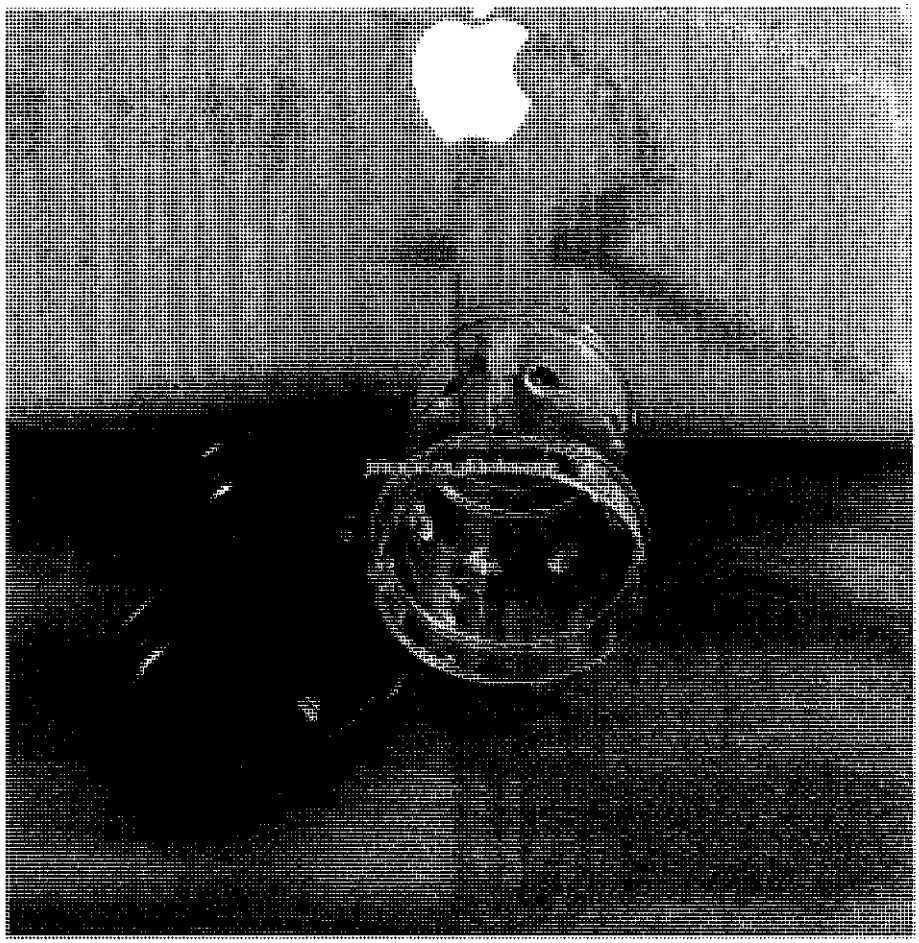

Boiled Egg Shell Peeler Peeling Kitchen Tool BOILED EGG PEELERAdd 1/4 cup of water. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm

with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm

Save time: fast breakfast, save a lot of time, just a few seconds to use our egg peeler!
Innovation: The use of the device in the kitchen production efficiency is very high, boiled eggshell in a few seconds can easily peel.
This is a unique, crystal clear, sleek egg-shaped design that helps unravel the hardness of the shell.
We have carefully designed our product, have a large base, and open in the middle with a convenient, chaotic passage to remove peeled eggs
Add 1/4 cup (NeggTM capful) of water to the NeggTM.
Add your hard-boiled egg and snap on the top cap.
Now you're ready to slip the egg out of its shell.
SHAKE the NeggTM up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete With shells.
Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

Save time: fast breakfast, save a lot of time, just a few seconds to use our egg peeler!
Innovation: The use of the device in the kitchen production efficiency is very high, boiled eggshell in a few seconds can easily peel.

Add your hard-boiled egg and snap on the top cap.
Now you're ready to slip the egg out of its shell.

MPS HB Egg Peeler Is Cheap Copy of the Negg®

May 25, 2018

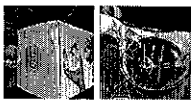

So many reasons this is bad. Infringes on so much of Airigan Solution's Intellectual Property, i.e. patent #9968211, copyright, and trademark #5142630. Is there anything left? I don't know about you but I don't want them anywhere near my food. What do you think? I'll stick with my real Negg®, the best egg peeler ever.

Product description

Color: **Yellow**

What is Labu Store Tool Egg Peeler Hard Boiled Egg Cooker Egg Shell Peeler Kitchen Tools Quickly And Easily?
Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess comple shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

▶Feature:
▶Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.
▶Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
▶Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
▶When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
▶If the egg is a reluctant shelter you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

MPS HB Egg Peeler is Cheap Copy of the Negg®

May 25, 2018

So many reasons this is bad. Infringes on so much of Airigan Solution's Intellectual Property, i.e. patent #9968211, copyright, and trademark #5142630. Is there anything left? I don't know about you but I don't want them anywhere near my food. What do you think? I'll stick with my real Negg®, the best egg peeler ever.

Subject: Mutual Claim

Hi Brian

This is Rinat. I've received a notification from Amazon about a claim of intellectual property infringement on the following ASIN numbers

ASIN: B07D5VXMQM
ASIN: B07D5WDCBX

ASIN B07D5W33BW

I have created my new listing and haven't sold a single product in Amazon and the products I purchased are from a manufacturer in China through Alibaba Trade Assurance Order. I have spoken to Amazon customer service agent and have provided my information and I have been told to contact you and ensure you that the product I have listed under UniGalaxy brand is not an infringement as I've also taken the approval of GTIN Exemption before enlisting my products. The ASIN Number was given by Amazon when I created my new listing for my products. You may contact Amazon anytime to know about my listing of those ASIN Numbers.

It would be really nice of you to retract the claim issued on me as you can definitely review and see that my listed products aren't related to yours at all as my products are listed under new listing in Aamzon.

I look forward to your kind reply soon and wish you more success.

Regards

Rinat

Subject: Utility Patent Rights

Hello There..

This is Rinat and I am the UniGalaxy store owner in Amazon Seller Central. I believe there is a utility patent rights
dispute issued on the following item
ASIN:B07CGN969R
B07C7VQ57W
Complaint ID: 5116171411

The Patent number: 9968211... I have just been recommended by Amazon to contact you directly to resolve the issue with you. I would really appreciate to know your concern and heartily look forward to proceed accordingly to what can be done to resolve this issue with you. To be frank As a new seller I am not really sure of why this dispute is issued on my private listing product but would definitely like to end it to our mutual interest.

Do let me know your concern and I am sure we both can come to a better conclusion...

Regards

Rinat

Product description

▶Feature:

▶Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

▶Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.

▶Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

▶When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

▶If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

▶Product Name:The Egg Peeler

▶Product material: PP+AS

▶The best way to peel eggs quickly and easily.

▶Size: about 9.8 * 6.3 cm / 3.86 * 2.48 inch

Would not buy Again.
June 11, 2018
Verified Purchase

Bought on April 29th - Egg Timer used for one month - Egg Timer has fallen apart - Egg Slicer POS - Not sharp enought to slice eggs, just crushes them - Egg Peeler is ok most of the time. Eggs must be cold to work properly.
I would not buy this bundle again - still looking for a good timer.

Subject: RIGHTS VIOLATION RETRACTION Trademark Complaint ID 5019889591

Dear Amazon:

This will follow up on my detailed voicemail for your general counsel, David A. Zapolsky, Esquire.

I am legal counsel for Airigan Solutions, LLC, licensed to use the NEGG® a trademark for the sales of manually operated device for peeling eggs.

The product name NEGG ® (U.S. Reg. No. 5142630) is a US registered trademark (A copy of the registration, status, and title record is attached).

Multiple sellers have been violating my client's trademark registration by using the trademark without authorization.

Apparently when my client asked that the unauthorized trademark infringing listings be removed, the automated system also removed my client's legitimate listings and they have not been put up again.

This is despite repeated requests and my client is being damaged hourly by this failure.

Please be sure to reinstate the listings immediately.

Please call me if other information is required.

You may reach me 24/7 at [redacted]

Thanks for your attention to this matter.

Subject: Please Retract Dispute
Attachments: Trade Assurance Purchase Contract.pdf; Invoice Order Details_2.pdf

Hello Brian

I am [redacted] is the name of my store in Amazon. I would like to request you to retract the claim of dispute after reviewing my order details and legal procedures. I have received a notification from Amazon regarding a dispute claimed of Property Infringement on the following ASIN Numbers which needs to be resolved.
ASIN: B07CGN969R
ASIN: B07C7VQ57

Let me begin by informing you that I haven't sold a single product that can be claimed as property infringement. In fact I applied for new listing in Amazon for those ASIN numbers and the ASIN numbers were created by Amazon after listing my products. The products were listed under the Brand Name [redacted] related to my Store Name. Moreover my products were purchased from a manufacturer in China named Ningbo Ontime Imp. & Exp. Co., Ltd.

As evidence my Trade Assurance Purchase Contract is attached herewith this email including my Order Invoice from the manufacturer. The Unit Price and the Total amount of payment is removed from the contract page for security reasons. I am sure these documents are good enough to convince you and clarify my legal procedures. I have also taken the approval of GTIN Exemption for these products before listing. Every details of my products are created and customized by me including Product Description, product features and the images too..

So I firmly believe that there are no act of infringements taken by me of my products and of course you may verify my given information from Amazon as well as I have already discussed this issue with Amazon Customer Service Officials and have been forwarded to you to provide you my invoice for you to verify and kindly retract the claim.

I would highly appreciate if you please withdraw the dispute claimed against my product as I can ensure you that there is no intention of property infringement in my listing as I am here to do long term business as well.

Please feel free to contact me anytime. Looking forward to your kind reply soon.

Regards

Subject: Retract claim
Attachments: Order Invoice.pdf

Hello
I am Rinat. My store name is UniGalaxy in amazon. I would like to inform you that I received a notification from Amazon regarding a dispute claimed on property infringement and to contact you directly to resolve this issue. So here I am to request you to please retract the claim as I can ensure you that not a single product has been sold of those ASIN numbers mentioned and my products that I have newly listed under the brand name UniGalaxy and the ASIN provided by Amazon is not an infringement to the rights owner at all. I am ready to comply with you to mutual this case as one thing I can ensure you that there was no intention of infringement to any of the rights owner products....
The product has been ordered from my manufacturer in China and listed in Amazon as new listing and I have also taken the GTIN EXEMPTION approval from Amazon as well.... My order invoice is attached with this email for you to review and verify.
Please let me know your procedures to verify my order and I am fully eager to comply with them to mutual this dispute.
I look forward to hearing from you soon.

Regards

Rinat

Have you ever peeled a boiled egg? I'm sure you have. Do you think it's easy to strip eggs? Well, it's a little difficult. Selecting this egg peeler, you will find it is easy to peel an egg.

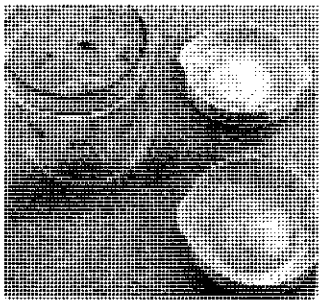

What Makes This Device So Efficient?

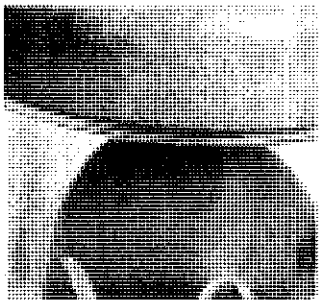

The outside eggshell consists of calcium carbonate. When a boiled egg gets inside the device, its shell cracks when hitting the row of bumps on the container walls. As you see the water inside the container helps to separate egg shell from the egg.

MPS HB Egg Peeler is Cheap Copy of the Negg®

May 25, 2018

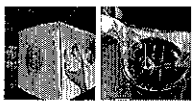

So many reasons this is bad. Infringes on so much of Airigan Solution's Intellectual Property, i.e. patent #9968211, copyright, and trademark #5142630. Is there anything left? I don't know about you but I don't want them anywhere near my food. What do you think? I'll stick with my real Negg®, the best egg peeler ever.

Easter Eggs

Using the peeler on Easter, several dozen eggs, this changed the number of deviled eggs from "have to" to "get to". People were taking turns using peeler. Turns e chore into fun..... I was sceptical - it works....
Shake side to side and up and down.
Took a couple of times to find the best "shake routine".

Negg is great

Ordered for my wife who spent long frustrating time peeling eggs. She loves it and it works exactly as advertised. Boil eggs 10 min then ice water t then put egg in Negg with a little water and shake but not hard for a few seconds. Eggs peel easily without damage to soft parts.

It really works!

After a short learning curve—one or two eggs—you can really peel a lot of eggs in a hurry. Put the egg in with an ounce or two of water, shake rapic few times. The egg really just slips out in your hand. So simple yet so convenient.

Product Description

Color:Yellow Compact and sturdy, the NEGG® makes the once tedious task of peeling boiled eggs ingeniously simple, Fast and fun! Add a little water and your boiled egg to the NEGG®. SNAP on the cap. SHAKE it a few times. Remove the shelled egg. It takes just seconds. Order today and join our growing family of Negg® Heads.

Product Features

- Package Dimensions: 4.2 x 3.1 x 3 inches
- Item Weight: 3.2 ounces
- Shipping Weight: 3.2 ounces
- Manufacturer: AIRIGAN SOLUTIONS
- Item model number: 3190123456

- Add 1/4 cup (Negg capful) of water to the Negg. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Negg up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with sbells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Doesn't Work and Overpriced

I seem to be alone on this negative review. Puzzling.

Just the same, I've tried this device with more than a dozen hard-boiled eggs, and I have yet to get that clean result as advertised - and as shown in manufacture's video - where the shell comes off the egg cleanly and with little effort. Read full review...

Are You Still Troubled With Peeling Eggs?

Have you ever peeled a boiled egg? I'm sure you have. Do you think it's easy to strip eggs? Well, it's a little difficult. Selecting this egg peeler, you will find it is easy to peel an egg.

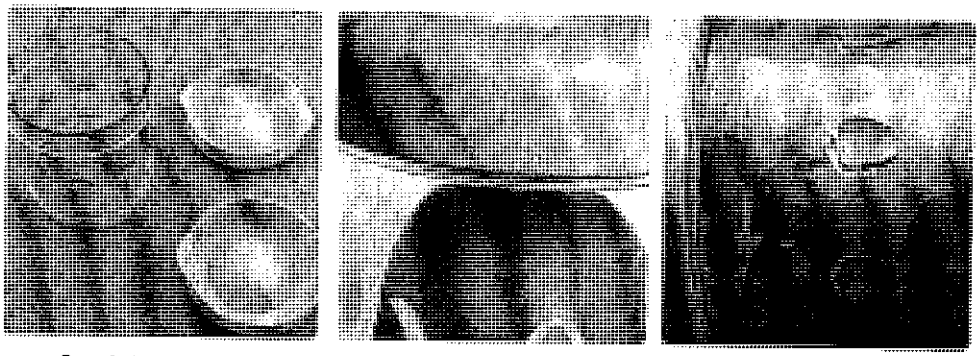

What Makes This Device So Efficient?

The outside eggshell consists of calcium carbonate. When a boiled egg gets inside the device, its shell cracks when hitting the row of bumps on the container walls. As you see the water inside the container helps to separate egg shell from the egg.

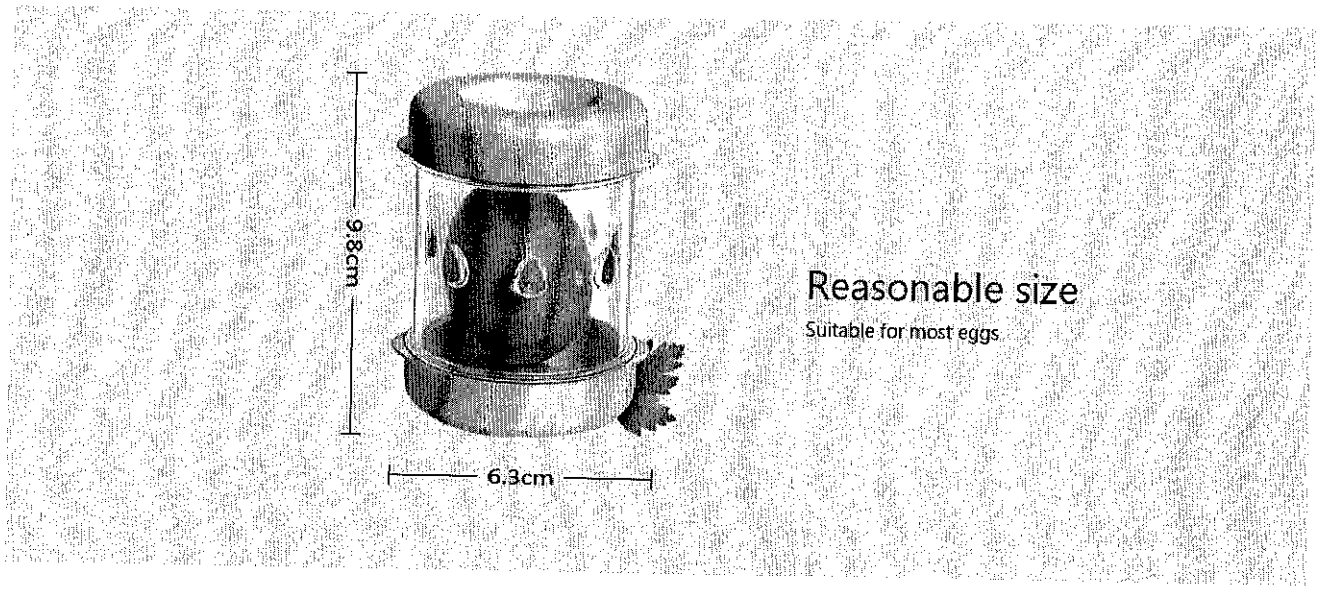

You Deserve It

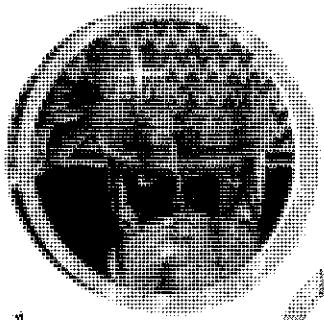

Detachable structure for easy clean

High-quality materials for safe use

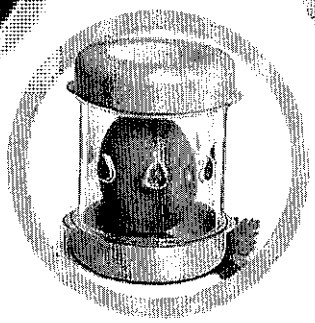

The protrusions inside are designed to break eggs

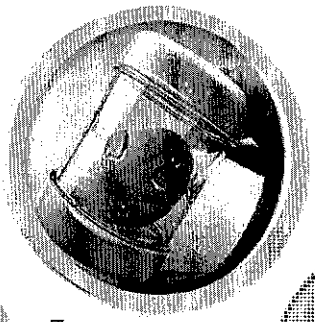

Simple, Fast and Fun Peeling

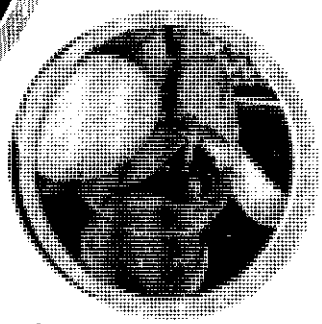

1 Open the egg peeler and pour some water inside (A little under 1 / 4 cup of water).

2 Take a boiled egg and put it inside the container and close it.

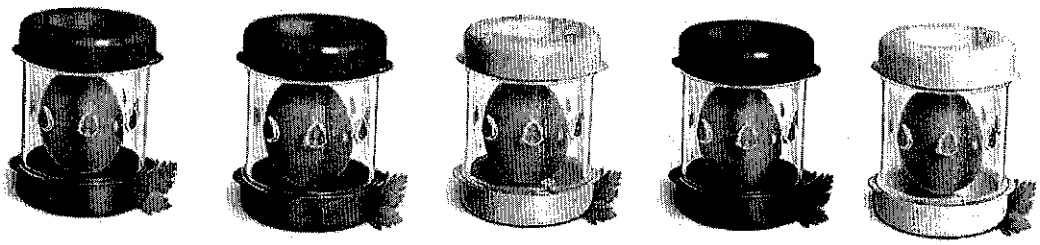

3 Shake it for about 4 ~ 12 times.

4 Open the container and you see that the egg shell is easy to peel away from the egg.

Actually, we removed the listing voluntarily until this matter is resolved, Walmart has not reached out to us regarding any infringement complaint.

Thanks for confirming.

I don't know what they think they are doing.

As of this morning, they are no longer on Walmart.com under "NEGG" or "egg peeler" so I have to conclude that Walmart accepted my infringement complaint.

See the screen shot of the complete (and irrelevant) e-bay communication.
