14. CONVENTION ON THE SERVICE ABROAD OF JUDICIAL AND EXTRAJUDICIAL DOCUMENTS IN CIVIL OR COMMERCIAL MATTERS

(Concluded 15 November 1965)

The States signatory to the present Convention,
Desiring to create appropriate means to ensure that judicial and extrajudicial documents to be served abroad shall be brought to the notice of the addressee in sufficient time,
Desiring to improve the organisation of mutual judicial assistance for that purpose by simplifying and expediting the procedure,
Have resolved to conclude a Convention to this effect and have agreed upon the following provisions:

Article 1

The present Convention shall apply in all cases, in civil or commercial matters, where there is occasion to transmit a judicial or extrajudicial document for service abroad.
This Convention shall not apply where the address of the person to be served with the document is not known.

CHAPTER I – JUDICIAL DOCUMENTS

Article 2

Each Contracting State shall designate a Central Authority which will undertake to receive requests for service coming from other Contracting States and to proceed in conformity with the provisions of Articles 3 to 6.
Each State shall organise the Central Authority in conformity with its own law.

Article 3

The authority or judicial officer competent under the law of the State in which the documents originate shall forward to the Central Authority of the State addressed a request conforming to the model annexed to the present Convention, without any requirement of legalisation or other equivalent formality.
The document to be served or a copy thereof shall be annexed to the request. The request and the document shall both be furnished in duplicate.

Article 4

If the Central Authority considers that the request does not comply with the provisions of the present Convention it shall promptly inform the applicant and specify its objections to the request.

Article 5

The Central Authority of the State addressed shall itself serve the document or shall arrange to have it served by an appropriate agency, either –

a) by a method prescribed by its internal law for the service of documents in domestic actions upon persons who are within its territory, or

b) by a particular method requested by the applicant, unless such a method is incompatible with the law of the State addressed.

Subject to sub-paragraph *(b)* of the first paragraph of this Article, the document may always be served by delivery to an addressee who accepts it voluntarily.
If the document is to be served under the first paragraph above, the Central Authority may require the document to be written in, or translated into, the official language or one of the official languages of the State addressed.
That part of the request, in the form attached to the present Convention, which contains a summary of the document to be served, shall be served with the document.

Article 6

The Central Authority of the State addressed or any authority which it may have designated for that purpose, shall complete a certificate in the form of the model annexed to the present Convention.
The certificate shall state that the document has been served and shall include the method, the place and the date of service and the person to whom the document was delivered. If the document has not been served, the certificate shall set out the reasons which have prevented service.
The applicant may require that a certificate not completed by a Central Authority or by a judicial authority shall be countersigned by one of these authorities.
The certificate shall be forwarded directly to the applicant.

Article 7

The standard terms in the model annexed to the present Convention shall in all cases be written either in French or in English. They may also be written in the official language, or in one of the official languages, of the State in which the documents originate.
The corresponding blanks shall be completed either in the language of the State addressed or in French or in English.

Article 8

Each Contracting State shall be free to effect service of judicial documents upon persons abroad, without application of any compulsion, directly through its diplomatic or consular agents.
Any State may declare that it is opposed to such service within its territory, unless the document is to be served upon a national of the State in which the documents originate.

Article 9

Each Contracting State shall be free, in addition, to use consular channels to forward documents, for the purpose of service, to those authorities of another Contracting State which are designated by the latter for this purpose.
Each Contracting State may, if exceptional circumstances so require, use diplomatic channels for the same purpose.

Article 10

Provided the State of destination does not object, the present Convention shall not interfere with –

a) the freedom to send judicial documents, by postal channels, directly to persons abroad,

b) the freedom of judicial officers, officials or other competent persons of the State of origin to effect service of judicial documents directly through the judicial officers, officials or other competent persons of the State of destination,

c) the freedom of any person interested in a judicial proceeding to effect service of judicial documents directly through the judicial officers, officials or other competent persons of the State of destination.

Article 11

The present Convention shall not prevent two or more Contracting States from agreeing to permit, for the purpose of service of judicial documents, channels of transmission other than those provided for in the preceding Articles and, in particular, direct communication between their respective authorities.

Article 12

The service of judicial documents coming from a Contracting State shall not give rise to any payment or reimbursement of taxes or costs for the services rendered by the State addressed.
The applicant shall pay or reimburse the costs occasioned by —

a) the employment of a judicial officer or of a person competent under the law of the State of destination,

b) the use of a particular method of service.

Article 13

Where a request for service complies with the terms of the present Convention, the State addressed may refuse to comply therewith only if it deems that compliance would infringe its sovereignty or security.
It may not refuse to comply solely on the ground that, under its internal law, it claims exclusive jurisdiction over the subject-matter of the action or that its internal law would not permit the action upon which the application is based.
The Central Authority shall, in case of refusal, promptly inform the applicant and state the reasons for the refusal.

Article 14

Difficulties which may arise in connection with the transmission of judicial documents for service shall be settled through diplomatic channels.

Article 15

Where a writ of summons or an equivalent document had to be transmitted abroad for the purpose of service, under the provisions of the present Convention, and the defendant has not appeared, judgment shall not be given until it is established that –

a) the document was served by a method prescribed by the internal law of the State addressed for the service of documents in domestic actions upon persons who are within its territory, or

b) the document was actually delivered to the defendant or to his residence by another method provided for by this Convention,
and that in either of these cases the service or the delivery was effected in sufficient time to enable the defendant to defend.

Each Contracting State shall be free to declare that the judge, notwithstanding the provisions of the first paragraph of this Article, may give judgment even if no certificate of service or delivery has been received, if all the following conditions are fulfilled –

a) the document was transmitted by one of the methods provided for in this Convention,

b) a period of time of not less than six months, considered adequate by the judge in the particular case, has elapsed since the date of the transmission of the document,

c) no certificate of any kind has been received, even though every reasonable effort has been made to obtain it through the competent authorities of the State addressed.

Notwithstanding the provisions of the preceding paragraphs the judge may order, in case of urgency, any provisional or protective measures.

Article 16

When a writ of summons or an equivalent document had to be transmitted abroad for the purpose of service, under the provisions of the present Convention, and a judgment has been entered against a defendant who has not appeared, the judge shall have the power to relieve the defendant from the effects of the expiration of the time for appeal from the judgment if the following conditions are fulfilled –

a) the defendant, without any fault on his part, did not have knowledge of the document in sufficient time to defend, or knowledge of the judgment in sufficient time to appeal, and

b) the defendant has disclosed a *prima facie* defence to the action on the merits.

An application for relief may be filed only within a reasonable time after the defendant has knowledge of the judgment.

Each Contracting State may declare that the application will not be entertained if it is filed after the expiration of a time to be stated in the declaration, but which shall in no case be less than one year following the date of the judgment.

This Article shall not apply to judgments concerning status or capacity of persons.

CHAPTER II – EXTRAJUDICIAL DOCUMENTS

Article 17

Extrajudicial documents emanating from authorities and judicial officers of a Contracting State may be transmitted for the purpose of service in another Contracting State by the methods and under the provisions of the present Convention.

CHAPTER III – GENERAL CLAUSES

Article 18

Each Contracting State may designate other authorities in addition to the Central Authority and shall determine the extent of their competence.

The applicant shall, however, in all cases, have the right to address a request directly to the Central Authority.

Federal States shall be free to designate more than one Central Authority.

Article 19

To the extent that the internal law of a Contracting State permits methods of transmission, other than those provided for in the preceding Articles, of documents coming from abroad, for service within its territory, the present Convention shall not affect such provisions.

Article 20

The present Convention shall not prevent an agreement between any two or more Contracting States to dispense with –

a) the necessity for duplicate copies of transmitted documents as required by the second paragraph of Article 3,

b) the language requirements of the third paragraph of Article 5 and Article 7,

c) the provisions of the fourth paragraph of Article 5,

d) the provisions of the second paragraph of Article 12.

Article 21

Each Contracting State shall, at the time of the deposit of its instrument of ratification or accession, or at a later date, inform the Ministry of Foreign Affairs of the Netherlands of the following –

a) the designation of authorities, pursuant to Articles 2 and 18,

b) the designation of the authority competent to complete the certificate pursuant to Article 6,

c) the designation of the authority competent to receive documents transmitted by consular channels, pursuant to Article 9.

Each Contracting State shall similarly inform the Ministry, where appropriate, of –

a) opposition to the use of methods of transmission pursuant to Articles 8 and 10,

b) declarations pursuant to the second paragraph of Article 15 and the third paragraph of Article 16,

c) all modifications of the above designations, oppositions and declarations.

Article 22

Where Parties to the present Convention are also Parties to one or both of the Conventions on civil procedure signed at The Hague on 17th July 1905, and on 1st March 1954, this Convention shall replace as between them Articles 1 to 7 of the earlier Conventions.

Article 23

The present Convention shall not affect the application of Article 23 of the Convention on civil procedure signed at The Hague on 17th July 1905, or of Article 24 of the Convention on civil procedure signed at The Hague on 1st March 1954.
These Articles shall, however, apply only if methods of communication, identical to those provided for in these Conventions, are used.

Article 24

Supplementary agreements between Parties to the Conventions of 1905 and 1954 shall be considered as equally applicable to the present Convention, unless the Parties have otherwise agreed.

Article 25

Without prejudice to the provisions of Articles 22 and 24, the present Convention shall not derogate from Conventions containing provisions on the matters governed by this Convention to which the Contracting States are, or shall become, Parties.

Article 26

The present Convention shall be open for signature by the States represented at the Tenth Session of the Hague Conference on Private International Law.
It shall be ratified, and the instruments of ratification shall be deposited with the Ministry of Foreign Affairs of the Netherlands.

Article 27

The present Convention shall enter into force on the sixtieth day after the deposit of the third instrument of ratification referred to in the second paragraph of Article 26.
The Convention shall enter into force for each signatory State which ratifies subsequently on the sixtieth day after the deposit of its instrument of ratification.

Article 28

Any State not represented at the Tenth Session of the Hague Conference on Private International Law may accede to the present Convention after it has entered into force in accordance with the first paragraph of Article 27. The instrument of accession shall be deposited with the Ministry of Foreign Affairs of the Netherlands.
The Convention shall enter into force for such a State in the absence of any objection from a State, which has ratified the Convention before such deposit, notified to the Ministry of Foreign Affairs of the Netherlands within a period of six months after the date on which the said Ministry has notified it of such accession.
In the absence of any such objection, the Convention shall enter into force for the acceding State on the first day of the month following the expiration of the last of the periods referred to in the preceding paragraph.

Article 29

Any State may, at the time of signature, ratification or accession, declare that the present Convention shall extend to all the territories for the international relations of which it is responsible, or to one or more of them. Such a declaration shall take effect on the date of entry into force of the Convention for the State concerned.
At any time thereafter, such extensions shall be notified to the Ministry of Foreign Affairs of the Netherlands.
The Convention shall enter into force for the territories mentioned in such an extension on the sixtieth day after the notification referred to in the preceding paragraph.

Article 30

The present Convention shall remain in force for five years from the date of its entry into force in accordance with the first paragraph of Article 27, even for States which have ratified it or acceded to it subsequently.
If there has been no denunciation, it shall be renewed tacitly every five years.
Any denunciation shall be notified to the Ministry of Foreign Affairs of the Netherlands at least six months before the end of the five year period.
It may be limited to certain of the territories to which the Convention applies.
The denunciation shall have effect only as regards the State which has notified it. The Convention shall remain in force for the other Contracting States.

Article 31

The Ministry of Foreign Affairs of the Netherlands shall give notice to the States referred to in Article 26, and to the States which have acceded in accordance with Article 28, of the following –

a) the signatures and ratifications referred to in Article 26;
b) the date on which the present Convention enters into force in accordance with the first paragraph of Article 27;
c) the accessions referred to in Article 28 and the dates on which they take effect;
d) the extensions referred to in Article 29 and the dates on which they take effect;
e) the designations, oppositions and declarations referred to in Article 21;
f) the denunciations referred to in the third paragraph of Article 30.

In witness whereof the undersigned, being duly authorised thereto, have signed the present Convention.

Done at The Hague, on the 15th day of November, 1965, in the English and French languages, both texts being equally authentic, in a single copy which shall be deposited in the archives of the Government of the Netherlands, and of which a certified copy shall be sent, through the diplomatic

channel, to each of the States represented at the Tenth Session of the Hague Conference on Private International Law.

PART ONE GENERAL PROVISIONS

CHAPTER I THE AIM, SCOPE OF REGULATION AND BASIS PRINCIPLES

Article 1. The Civil Procedure Law of the People's Republic of China is formulated on the basis of the Constitution and in the light of the experience and actual conditions of our country in trying civil cases.

SECTION 1 TIME PERIODS

Article 75. Time periods shall include those prescribed by law and those designated by a people's court.

Time periods shall be calculated by the hour, the day, the month and the year. The hour and day from which a time period begins shall not be counted as within the time period.

If the expiration date of a time period falls on a holiday, then the day immediately following the holiday shall be regarded as the expiration date.

A time period shall not include traveling time. A litigation document that is mailed before a deadline shall not be regarded as overdue.

Article 76. If a party fails to meet a deadline due to force majeure or for other justified reasons, he may apply for an extension of the time limit within 10 days after the obstacle is removed. The requested extension shall be subject to approval by a people's court.

SECTION 2 SERVICE

Article 77. A receipt shall be required for every litigation document that is served and it shall bear the signature or seal of the recipient of the service and the date of receipt.

The date of receipt as signed by the recipient of the service shall be regarded as the date the document is served.

Article 78. Litigation documents shall be served directly on the recipient of the service. If the recipient of the service is a citizen, the documents shall, in the case of his absence, be receipted by an adult member of his family living with him. If the recipient of the service is a legal person or any other organization, the document shall be receipted by the legal representatives of the legal person or the principle leading personnel of any other organization or the personnel of the legal person or any other organization in charge of receiving such documents; If the recipient of the service has an agent ad litem, the documents may be receipted by the agent ad litem. If the recipient of the service has designated an agent to receive his litigation documents and has informed the people's court of it, the documents may be receipted by the agent.

The date of receipt as signed by the adult family member living with the recipient of service, or persons in charge of receiving documents of legal persons or other organizations, or agents ad litem, or agents designated to receive his documents shall be regarded as the date the document is served.

Article 79. If the recipient of the service of a litigation document or the adult family member living with him refuses to accept a legal document, the person serving the document shall ask representatives from the relevant grassroots organization or the unit to which the recipient of the service belongs to appear on the scene, explain the situation to them, and record on the receipt the particulars of the refusal and the date of it. After the person serving the document and the witnesses have affixed their signatures or seals to the receipt, the document shall be left at the place where the recipient of the service stays and the service shall be considered completed.

Article 80. If direct service of a litigation document proves difficult, service of the document may be entrusted to another people's court, or it may be served by post. If a document is served by post, the date as stated on the receipt shall be regarded as the date the document is served.

Article 81. If the recipient of the service is in the military, the document shall be forwarded to him by the political organ at or above the regimental level in the unit to which he belongs.

Article 82. If the recipient of the service is undergoing imprisonment, the document shall be forwarded to him by the prison or unit of reform through labour where he is serving his term.

If the recipient of the service is undergoing rehabilitation through labour, the document shall be forwarded to him by the unit supervising his rehabilitation through labour.

Article 83. Any organization or unit that receives a litigation document to be forwarded must immediately deliver it to the recipient of the service for a receipt. The date as stated on the receipt shall be regarded as the date the document is served.

Article 84. If the whereabouts of a recipient of the service is unknown, or if a document cannot be served by the other methods mentioned in this section, the document shall be served by public announcement. Sixty days after the date of the public announcement, the document shall be deemed to have been served.

The reasons for service by public announcement and the procedures taken shall be recorded in the case files.

CHAPTER VIII CONCILIATION

Article 85. In handling civil cases, the people's court shall distinguish between right and wrong and conduct conciliation on the basis of the principle of voluntariness of the parties and evident facts.

Article 86. When a people's court conducts a conciliation, a single judge or a collegial panel may preside. Conciliations shall be conducted locally whenever possible.

When a people's court conducts a conciliation, it may employ simplified methods to notify the parties and witnesses to appear in court.

Article 87. When a people's court conducts a conciliation, it may request the assistance of units or individuals concerned. The requested units or individuals shall assist the people's court in conducting the conciliation.

Article 88. A conciliation agreement must be based on voluntariness of both parties, and shall not be reached through compulsion. The content of the conciliation agreement may not contravene the law.

Article 89. When a conciliation agreement is reached, the people's court shall draw up a conciliation statement. A conciliation statement shall clearly set forth the claims of the action, the facts about the case, and the result of the conciliation.

The conciliation statement shall be signed by the judge and the court clerk, sealed by the people's court, and served on both parties.

Once the conciliation statement is receipted and signed by both parties, it shall become legally effective.

Article 90. The people's court need not draw up a conciliation statement for the following cases when an agreement is reached through conciliation:

(1) cases of divorce in which both parties have become reconciled after conciliation;

(2) cases in which adoptive relationship has been maintained through conciliation;

(3) cases in which the claims can be immediately satisfied; and

(4) other cases that do not require conciliation statements.

Any agreement that does not require a conciliation statement shall be entered into

Cooked Egg Peeler Hard Hard Boiled Boiled Eggs Shell Peelers Pee ling Kitchen Tool Home egg slicer mutfak malzemeleri

Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough for ce so that the egg strikes the caps. Remember to take it a little easy, or you will end up wi th a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will v ary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Product Name:The Egg Peeler

Product material: PP+AS

The best way to peel eggs quickly and easily.

Size: about 9.8 * 6.3 cm / 3.86 * 2.48 inch

Picture of eggs as demonstration supplies (not include)

Product include:

1 PC Egg Peeler

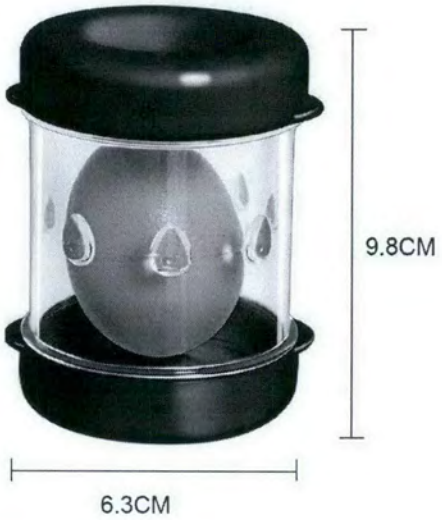

9.8CM
6.3CM

HOT SELL PRODUCT

Cooked Egg Peeler Hard Hard Boiled Boiled Egg Shell Peeler Peeling Kitchen Tool

Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough for ce so that the egg strikes the caps. Remember to take it a little easy, or you will end up wi th a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will v ary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Product Name:The Egg Peeler

Product material: PP+AS

Detailed description :

Cooked Egg Peeler Hard Hard Boiled Boiled Egg Shell Peeler Peeling Kitchen Tool

Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Product Name:The Egg Peeler

Шли месяц бабочки классные фото нет их я их уже подарила. Такие как на фото, зеркальные, покрыты защитной плёнкой с обоих сторон

Я их очень полюбила

M***a

Посылка долго шла(Но,бабочки красивые)Спасибо большое,закажу ещё)

A***o

Товар цел, где-то 3-4 недели. Были пробочки, так как товар сказали в другом городе. На продавцу быстро отвечали и решали эту проблему. Очень довольна товаром. Буду еще заказывать :)

T***v

Бабочки просто прелесть!Отлично для домашнего декора)))) Пополнила коллекцию к серебряным,теперь вот двух сторонние золотисто-серебряные.Заказ прилетел за 30 дней,бросили в почтовый ящик.Товаром довольна

Отличное

Д***o

28.10 сделала заказ, а получила 13.12. Сначала мой заказ ушел в другой город, пришлось открыть спор, но мой заказ все-таки до меня дошел и спор закрыли. Продавец тут не виноват, что то на почте напутали видимо. В целом не плохо за такие деньги.

На них спереди и сзади есть защитная пленочка, если ее убрать, то они будут блестеть. Держатся хорошо

Detailed description :

Cooked Egg Peeler Hard Hard Boiled Boiled Egg Shell Peeler Peeling Kitchen Tool

Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough for ce so that the egg strikes the caps. Remember to take it a little easy, or you will end up wi th a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will v ary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Product Name:The Egg Peeler

Product material: PP+AS

The best way to peel eggs quickly and easily.

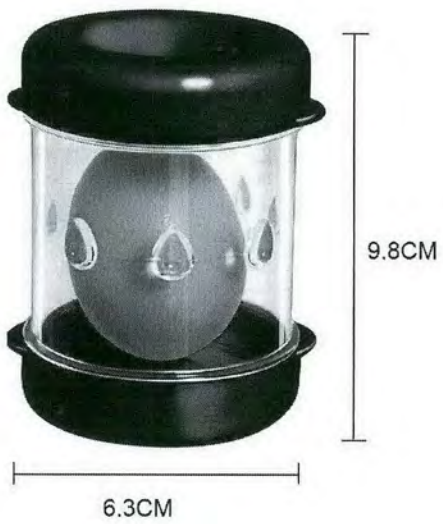

Size: about 9.8 * 6.3 cm / 3.86 * 2.48 inch

FAQ

1. What's the supplier's recommended shipping method?
   We support many shipping methods, including Airmail post and fast Express. Usually free shipping way is epacket or China post, takes 7-45 days. Fast express like DHL, UPS, FEDEX, usually takes only 4-7 days.

2. Will I get discount if buy in bulk?
   Yes, friend, we support bulk order and will provide you most competitive price.

3. How can I place sample order?
   All our products are little MOQ, can buy it directly by placing secure payment order.

4. What's your guarantee policy?
   If the product you receive is not as described or low quality, the seller promises that you may return it before order completion (when you click 'Confirm Order Received' or exceed confirmation timeframe) and receive a full refund. The return shipping fee will be paid by you. Or, you can choose to keep the product and agree the refund amount directly with the seller.

Save time: fast breakfast, save a lot of time, just a few seconds to use our egg peeler!
Innovation: The use of the device in the kitchen production efficiency is very high, boiled eggshell in a few secon ds can easily peel.
This is a unique, crystal clear, sleek egg-shaped design that helps unravel the hardness of the shell.
We have carefully designed our product, have a large base, and open in the middle with a convenient, chaotic pa ssage to remove peeled eggs
Add 1/4 cup (NeggTM capful) of water to the NeggTM.
Add your hard-boiled egg and snap on the top cap.
Now you're ready to slip the egg out of its shell.
SHAKE the NeggTM up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete With shells.
Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear s o you can watch the progress.
When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its s hell.
This can occur with extremely fresh eggs, and is not the norm.
colour: Color random, color cannot be selected
Material: plastic
size: 6.3*9.8cm
Package Contents:
1* Egg Shell Peeler
Only the above package content, other products are not included.
Note: Light shooting and different displays may cause the color of the item in the picture a little different from the real thing. The measurement allowed error is +/- 1-3cm.

PRODUCTS DETAIL

Let you know more

Eggs Shell Peeler Eggs Slicer Cutter Peeling Tool Eggs Peeler Kitchen Tool Eggs Slicer Eggs Separator

Features:

- Add 1/4 cup of water to the eggs shell peeler. Add your hard-boiled eggs and cover top cap.
- Now you're ready to slip the eggs out of its shell. Shake the peeler up and down with enough force so that the egg strikes the caps. Remember to tak e it a little easy, or you will end up with a slushy mess complete with shell s.
- Shake until you feel the shell begin to 'soften' - approximately 4 to 12 tim es. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomp lished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane afte r shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Product Name : SDFC-Egg Shell Peeler Egg Slicer Cutter Peeling Tool egg Peeler Kitchen Tool Home Egg Slicer

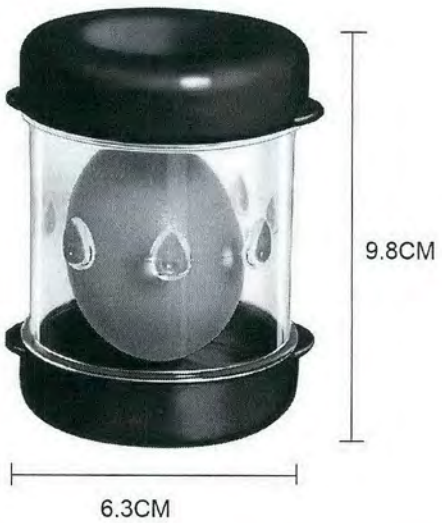

Product Attributes :

Simple description :

Detailed description : Save time: fast breakfast, save a lot of time, just a few seconds to use our egg peeler!
Innovation: The use of the device in the kitchen production efficiency is very high, boiled eggshell in a few seconds can easily peel.
This is a unique, crystal clear, sleek egg-shaped design that helps unravel the hardness of the shell.
We have carefully designed our product, have a large base, and open in the middle with a convenient, chaotic passage to remove peeled eggs
Add 1/4 cup (NeggTM capful) of water to the NeggTM.
Add your hard-boiled egg and snap on the top cap.
Now you're ready to slip the egg out of its shell.
SHAKE the NeggTM up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete With shells.
Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
This can occur with extremely fresh eggs, and is not the norm.
colour: Color random, color cannot be selected
Material: plastic
size: 6.3*9.8cm
Package Contents:
1* Egg Shell Peeler
Only the above package content, other products are not included.
Note: Light shooting and different displays may cause the color of the item in the picture a little different from the real thing. The measurement allowed error is +/- 1-3cm.

Product Name : NOCM-Egg Shell Peeler Egg Slicer Cutter Peeling Tool egg Peeler Kitchen Tool Home Egg Slicer

Product Attributes :

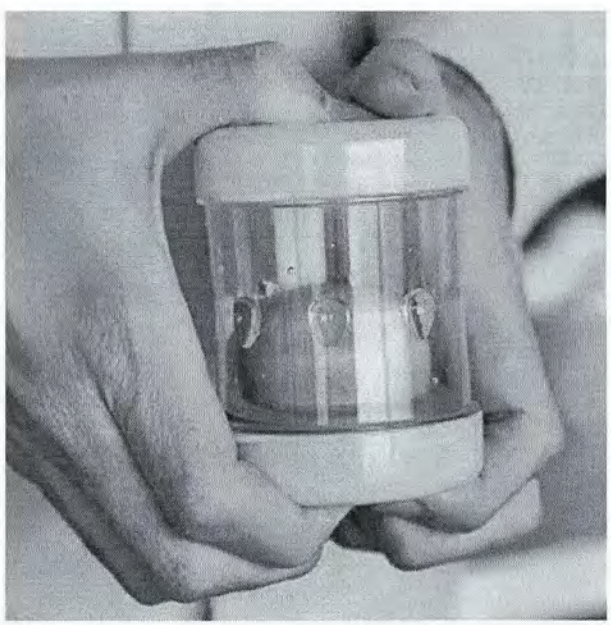

Simple description :

Detailed description : Save time: fast breakfast, save a lot of time, just a few seconds to use our egg peeler!
Innovation: The use of the device in the kitchen production efficiency is very high, boiled eggshell in a few secon ds can easily peel.
This is a unique, crystal clear, sleek egg-shaped design that helps unravel the hardness of the shell.
We have carefully designed our product, have a large base, and open in the middle with a convenient, chaotic pa ssage to remove peeled eggs
Add 1/4 cup (NeggTM capful) of water to the NeggTM.
Add your hard-boiled egg and snap on the top cap.
Now you're ready to slip the egg out of its shell.
SHAKE the NeggTM up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete With shells.
Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear s o you can watch the progress.
When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its s hell.
This can occur with extremely fresh eggs, and is not the norm.
colour: Color random, color cannot be selected
Material: plastic
size: 6.3*9.8cm
Package Contents:
1* Egg Shell Peeler
Only the above package content, other products are not included.
Note: Light shooting and different displays may cause the color of the item in the picture a little different from the real thing. The measurement allowed error is +/- 1-3cm.

PRODUCTS DETAIL

Let you know more

Eggs Shell Peeler Eggs Slicer Cutter Peeling Tool Eggs Peeler Kitchen Tool Eggs Slicer Eggs Separator

Features:

- Add 1/4 cup of water to the eggs shell peeler. Add your hard-boiled eggs and cover top cap.
- Now you're ready to slip the eggs out of its shell. Shake the peeler up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to 'soften' - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Detailed description :

Cooked Egg Peeler Hard Hard Boiled Boiled Egg Shell Peeler Peeling Kitchen Tool

Feature:

Add 1/4 cup of water to the peeler. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the up and down with enough for ce so that the egg strikes the caps. Remember to take it a little easy, or you will end up wi th a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will v ary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Product Name:The Egg Peeler

Product material: PP+AS

The best way to peel eggs quickly and easily.

Size: about 9.8 * 6.3 cm / 3.86 * 2.48 inch

PRODUCT DESCRIPTION

{infomodule}

Description :

-Add 1/4 cup of water to the egg shell peeler. Add your hard-boiled egg and cover to p cap.
-Now you're ready to slip the egg out of its shell. Shake the peeler up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or y ou will end up with a slushy mess complete with shells.
-Shake until you feel the shell begin to 'soften' - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
-When you see the white of the egg appear, you're done. Mission Accomplished. Th e egg will then slip out of its shell.
-If the egg is a reluctant sheller you may have to break the membrane after shaking t o get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

MPS HB Egg Peeler is Cheap Copy of the Negg®

May 25, 2018

So many reasons this is bad. Infringes on so much of Airigan Solution's Intellectual Property, i.e. patent #9968211, copyright, and trademark #5142630. Is there anything left? I don't know about you but I don't want them anywhere near my food. What do you think? I'll stick with my real Negg®, the best egg peeler ever.

Wishesport Boiled Egg Peeler Red,Kitchen Essential Egg Peelers Boiled Quail Egg Sheller Remover
Be the first to review this item
Available from these sellers.
• Add 1/4 cup of water to the Wishesport. Add your hard-boiled egg and snap on the top cap.
• Now you're ready to slip the egg out of its shell. SHAKE the Wishesport up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
• Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
• When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
• If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

- SIMPLE IN USE:Shake the Egg Peeler up and down with enough force so that the egg strikes the caps. A clear, see through plastic, will allow you to view the action of the shells sliding off.
- FINISH When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- FRIENDLY MATERIAL: The egg peeler is specially designed with the BPA Free, food-safe and non-toxic quality material. Tested and approved by a professional approved lab.
- DURABLE: The egg peeler from HoLeis is durable and made up of the high-quality commercial grade material with long-lasting elasticity. It's fun for the whole family
- TIP:If the egg is a reluctant shelter you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Boiled egg accessories bundle for making and serving the perfect boiled eggs! Includes color changing egg timer thermometer, egg peeler stripper.
Egg peeler is the best way to peel eggs quickly and easily. Put your boiled egg inside, add a little water, then gently cover the lid, shake a few times, and pour out your egg. Just by pinching, your egg will slide out of the shell.
Heat sensitive egg perfect timer with graduated scales show when eggs are soft, medium or hard by sensing heat instead of time. No more guessing, eggs are cooked exactly how you like them! Note: Do not immerse egg timer in cold water. Egg timer can be cooled on the counter.
TIME SAVING:you're saving a great deal of time. Quick breakfast, hard-boiled egg snack on the go or as an addition to your favorite salad, not to mention delicious deviled eggs for any occasion, are only seconds away when you're using our multi egg peeler!
NO RISK PURCHASE - Making you a happy customer is our main goal. Just try it, and if you don't absolutely Love it, just send us a message and we will Refund or Replace your Purchase, NO QUESTIONS ASKED!

THE SOLUTION IS HERE Are boiled eggs your family's favorite breakfast? Healthy indeed, but difficult to peel! As you have already noticed time is a real problem for everyone. If you want to enjoy your morning eggs in an easy and simple manner we provide you with our hard boiled eggs peeler.
PREMIUM QUALITY This boiled egg peeler is the ideal solution to enjoying boiled eggs without making too much mess and saving a lot of time. It is specially designed with BPA Free, food safe and non toxic materials so that you can eat a healthy and well peeled egg. The device has a clear color so that you can see the whole process. Your breakfast will be quick and delicious!
EASY TO USE This wonderful egg stripper transforms your morning routine into a simple procedure. Add water to the fill line and put the boiled egg inside. In the meantime snap on the top cap and start shaking the device up and down. There you have it: a fresh and tasty egg ready for your salad, favorite dish or snack.
TIME AND ENERGY SAVER Peeling a boiled egg can be a rather difficult task since the shell does not always come off easily and it can be quite hard sometimes to remove it without breaking the egg or making a lot of mess. From now on your boiled eggs will not take you more than a few seconds and not even a little bit of energy.
DURABLE Created of high quality materials this egg peeler is resistant and durable. You can enjoy its utility with every occasion you have. It has a long lasting elasticity and it is fun for the whole family. Use it and you will experience a wonderful breakfast!
