## THE NEGG BOILED EGG PEELER YELLOW

### Description

- Add 1/4 cup (Negg™ capful) of water to the Negg™. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Negg™ up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

### Color: Yellow

Compact and sturdy, the NEGG™ makes the once tedious task of peeling boiled eggs ingeniously simple, Fast and fun! Add a little water and your boiled egg to the NEGG™. SNAP on the cap. SHAKE it a few times. Remove the shelled egg. It takes just seconds. Order today and join our growing family of Negg™ Heads.

THE NEGG BOILED EGG PEELER YELLOW

More about the item

Color:Yellow Compact and sturdy, the NEGG® makes the once tedious task of peeling boiled eggs ingeniously simple, Fast and fun! Add a little water and your boiled egg to the NEGG®. SNAP on the cap. SHAKE it a few times. Remove the shelled egg. It takes just seconds. Order today and join our

growing family of Negg® Heads.

### Main Points

Package Dimensions: 4.2 x 3.1 x 3 inches  
Item Weight: 3.2 ounces  
Shipping Weight: 3.2 ounces  
Manufacturer: AIRIGAN SOLUTIONS  
Item model number: 3190123456

Make sure this fits. by entering your model number.

Add 1/4 cup (Negg capful) of water to the Negg. Add your hard-boiled egg and snap on the top cap.

Now you're ready to slip the egg out of its shell. SHAKE the Negg up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.

Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.

If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Negg is great

Ordered for my wife who spent long frustrating time peeling eggs. She loves it and it works exactly as advertised. Boil eggs 10 min then ice water ten mins then put egg in Negg with a little water and shake but not hard for a few seconds. Eggs peel easily without damage to soft parts.

Easter Eggs

Using the peeler on Easter, several dozen eggs, this changed the number of deviled eggs from "have to" to "get to". People were taking turns using the peeler. Turns a chore into fun..... I was sceptical - it works....

Shake side to side and up and down.

Took a couple of times to find the best "shake routine".

### Product Features

- Make sure this fits. by entering your model number.
- Add 1/4 cup (Negg capful) of water to the Negg. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Negg up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.

Doesn't Work and Overpriced

I seem to be alone on this negative review. Puzzling.

Just the same, I've tried this device with more than a dozen hard-boiled eggs, and I have yet to get that clean result as advertised - and as shown in the manufacture's video - where the shell comes off the egg cleanly and with little effort. Read full review...

Doesn't Work and Overpriced

I seem to be alone on this negative review. Puzzling.

Just the same, I've tried this device with more than a dozen hard-boiled eggs, and I have yet to get that clean result as advertised - and as shown in the manufacturer's video - where the shell comes off the egg cleanly and with little effort. Read full review...

**THE NEGG BOILED EGG PEELER YELLOW****Item Description**

Color: Yellow Compact and sturdy, the NEGG® makes the once tedious task of peeling boiled eggs ingeniously simple, Fast and fun! Add a little water and your boiled egg to the NEGG®, SNAP on the cap. SHAKE it a few times. Remove the shelled egg. It takes just seconds. Order today and join our growing family of Negg® Heads.

**Main Features**

- Make sure this fits, by entering your model number.
- Add 1/4 cup (Negg capful) of water to the Negg. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Negg up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

**Specification**

Color: Yellow  
 Brand: THE NEGG

THE NEGG BOILED EGG PEELER WHITE

**THE NEGG BOILED EGG PEELER WHITE**

- Add 1/4 cup (Negg capful) of water to the Negg. Add your hard-boiled egg and snap on the top cap.
- Now you're ready to slip the egg out of its shell. SHAKE the Negg up and down with enough force so that the egg strikes the caps. Remember to take it a little easy, or you will end up with a slushy mess complete with shells.
- Shake until you feel the shell begin to "soften" - approximately 4 to 12 times. Timing will vary. The body is clear so you can watch the progress.
- When you see the white of the egg appear, you're done. Mission Accomplished. The egg will then slip out of its shell.
- If the egg is a reluctant sheller you may have to break the membrane after shaking to get the shell to release. This can happen with extremely fresh eggs, and is not the norm.

Color:White

Compact and sturdy, the NEGG® makes the once tedious task of peeling boiled eggs ingeniously simple. Fast and fun! Add a little water and your boiled egg to the NEGG®, SNAP on the cap. SHAKE it a few times. Remove the shelled egg. It takes just seconds. Order today and join our growing family of Negg™ Heads.

Nothing more to say than this gadget plain works. I purchased them for the Ladies in our department. They all love them. Makes a messy and sometimes frustrating exercise super easy. Buy one, you won't regret it!
